Summary

I'm a Junior Full Stack Web Developer looking to get my foot on the door of the IT industry primarily in Software Engineering. I can develop E-Commerce web application using readily available web frameworks. I'm a result-driven kind of person, seeking to use proven Javascript skills to deliver coding excellence to your company.

Experience

Student

Zuitt - Coding Bootcamp Philippines

Aug 2021 - Sep 2021 (2 months)

Capstone 3 Project

- Created a budget tracking app using the MERN stack (MongoDB, Express, ReactJS, NodeJS).
- Created the client side of the app using React.
- Created the server side of the app with NodeJS, Express, and MongoDB as it's Database.
- Successfully deployed it to Heroku.

Student
